## Implementation of Student-Centric Teaching Learning Methods

### Academic Year 2022–2023

METAS Adventist College adopts various student-centric teaching learning methodologies to enhance academic engagement, experiential learning, participative learning, and problem-solving abilities among students.The institution continuously strives to create an effective learning environment that promotes holistic development, leadership qualities, innovation, and practical exposure among students. In order to ensure maximum engagement and active participation, mentors are appointed to provide personal care, academic guidance, counselling, and continuous support for the overall growth and development of students.

The faculty members employ a combination of innovative and interactive teaching methodologies including:

- Case study analysis relating subjects to real industrial and business situations
- Problem-solving exercises and application-oriented learning
- Group discussions and collaborative learning methods
- Role plays and simulation techniques
- Oral presentations and classroom seminars
- Teaching–learning through online platforms and digital resources
- Interactive classroom discussions and debates

The institution also encourages experiential learning through various academic and co-curricular platforms. The **Finance Club, Marketing Club, and HR Club** provide students with opportunities for continuous intellectual and professional development. Students are exposed to practical learning experiences such as:

- Simulated stock market trading platforms
- Practical understanding of marketing strategies
- Exposure to current Human Resource Management trends
- Industry-oriented learning activities and presentations

Further, the **Entrepreneurship Cell** of the college provides a platform for innovative thinkers and aspiring entrepreneurs to develop and present entrepreneurial ideas, thereby nurturing creativity, leadership, and business skills among students.

The college believes that student-centric learning plays a vital role in improving communication skills, critical thinking, decision-making abilities, teamwork, and self-confidence. Faculty members and mentors are instructed to continue implementing these innovative teaching practices effectively for enhancing the learning experiences of students.All students are encouraged to actively participate in academic activities, club activities, discussions, presentations, and experiential learning programmes conducted by the institution.
